## Threat Protect completes acquisition of major security monitoring provider

## Purchase of fellow security company doubles Threat Protect's client base

Threat Protect Australia (ASX: TPS), a leading WA security company which listed on the ASX last month, is pleased to advise that it has completed its acquisition of fellow security services provider Monitoring Excellence.

The deal, which is part of Threat Protect's key strategy to grow through acquisition, more than doubles its total number of clients to approximately 20,000.

Threat Protect paid \$2.52 million to acquire Monitoring Excellence's parent company, Chipla Holdings Pty Ltd. Monitoring Excellence has more than 10,000 clients and generates annual revenue of approximately \$1.8 million.

The deal is earnings accretive to Threat Protect from day one.

The acquisition is part of Threat Protect's strategy to generate growth for shareholders by leveraging its existing fixed-cost infrastructure, namely its security control room, by expanding the number of clients it services. The facility is graded A1, which is the highest-possible grade, and has capacity for this and future acquisitions. This means acquisitions lead to improved services for the new clients and a reduction in overall costs.

Threat Protect provides security, monitoring and risk-management solutions to the growing security-conscious market. It owns and operates one of just four A1 security control centres in Perth, which is contracted by numerous other "retail" security firms to support their services.

Threat Protect is also pleased to advise that it has settled litigation (see ASX release "Second Placement Prospectus" dated July 30, 2015).
