ASX ANNOUNCEMENT

Beer & Co Research Report

Leading WA security provider Threat Protect Australia (ASX: TPS) is pleased to advise that equity research firm Beer & Co has published an extensive research report on the Company.

In the report, Beer & Co discusses:

- Threat Protect's strategy to grow its client base through acquisition and the considerable impact this is already having have on margins and earnings;
- The capacity for Threat Protect's monitoring control room to service more than 100,000 customers – five times its existing utilisation – with relatively small increases in its costs;
- The growing demand for technology-based security such as monitoring and Threat Protect's ability to capitalise on this trend;
- The imminent launch by Threat Protect of a monitoring Smart App which will allow a mobile phone user to have their own personal duress alarm which can be used worldwide on any network.

Beer & Co's research report can be read at www.beerandco.com.au
